Finding—1991 c 326: "The legislature finds that a destructive lifestyle of drug and street gang activity is rapidly becoming prevalent among some of the state's youths. Gang and drug activity may be a culturally influenced phenomenon which the legislature intends public and private agencies to consider and address in prevention and treatment programs. Gang and drug-involved youths are more likely to become addicted to drugs or alcohol, live in poverty, experience high unemployment, be incarcerated, and die of violence than other youths."
