

RCW 29A.12.130 Tallying systems—Programming tests. At least three days before each state primary or general election, the office of the secretary of state shall provide for the conduct of tests of the programming for each vote tallying system to be used at that primary or general election. The test must verify that the system will correctly count the vote cast for all candidates and on all measures appearing on the ballot at that primary or general election. The test shall verify the capability of the vote tallying system to perform all of the functions that can reasonably be expected to occur during conduct of that particular primary or election. If any error is detected, the cause shall be determined and corrected, and an errorless total shall be produced before the primary or election.

Such tests shall be observed by at least one representative from each major political party, if representatives have been appointed by the respective major political parties and are present at the test, and shall be open to candidates, the press, and the public. The county auditor and any political party observers shall certify that the test has been conducted in accordance with this section. Copies of this certification shall be retained by the secretary of state and the county auditor. All programming materials, test results, and test ballots shall be securely sealed until the day of the primary or general election. [2003 c 111 § 313; 1998 c 58 § 2; 1990 c 59 § 32; 1977 ex.s. c 361 § 73. Formerly RCW 29.33.350, 29.34.163.]

Intent—Effective date—1990 c 59: See notes following RCW 29A.04.013.

Effective date—Severability—1977 ex.s. c 361: See notes following RCW 29A.16.040.
