

RCW 43.21C.410 Battery charging and exchange station installation. (1) The installation of individual battery charging stations and battery exchange stations, which individually are categorically exempt under the rules adopted under RCW 43.21C.110, may not be disqualified from such categorically exempt status as a result of their being parts of a larger proposal that includes other such facilities and related utility networks under the rules adopted under RCW 43.21C.110.

(2) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Battery charging station" means an electrical component assembly or cluster of component assemblies designed specifically to charge batteries within electric vehicles, which meet or exceed any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540.

(b) "Battery exchange station" means a fully automated facility that will enable an electric vehicle with a swappable battery to enter a drive lane and exchange the depleted battery with a fully charged battery through a fully automated process, which meets or exceeds any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540.
