

RCW 5.70.050 Duty to submit requests for forensic analysis of sexual assault kits within time prescribed—Exceptions. (1) Law enforcement agencies shall submit requests for forensic analysis of all sexual assault kits collected prior to July 24, 2015, and in the possession of the agencies to the Washington state patrol crime laboratory by October 1, 2019, except submission for forensic analysis is not required when: (a) Forensic analysis has previously been conducted; (b) there is documentation of an adult victim or emancipated minor victim expressing that he or she does not want his or her sexual assault kit submitted for forensic analysis; or (c) a sexual assault kit is noninvestigatory and held by a law enforcement agency pursuant to an agreement with a hospital or other medical provider. The requirements of this subsection apply regardless of the statute of limitations or the status of any related investigation.

(2) The Washington state patrol crime laboratory may consult with local law enforcement agencies to coordinate the efficient submission of requests for forensic analysis under this section in conjunction with the implementation of the statewide tracking system under RCW 43.43.545, provided that all requests are submitted and all required information is entered into the statewide sexual assault tracking system by October 1, 2019. The Washington state patrol crime laboratory shall facilitate the forensic analysis of all sexual assault kits submitted under this section by December 1, 2021. The analysis may be conducted by the Washington state patrol laboratory or an accredited laboratory holding a contract or agreement with the Washington state patrol. The Washington state patrol shall process the forensic analysis of sexual assault kits in accordance with the priorities in RCW 5.70.040(2).

(3) The requirements to request and complete laboratory examination of sexual assault kits under this section do not include forensic toxicological analysis. However, nothing in this section limits or modifies the authority of a law enforcement agency to request toxicological analysis of evidence collected in a sexual assault kit.

(4) The failure of a law enforcement agency to submit a request for laboratory examination within the time prescribed under this section does not constitute grounds in any criminal proceeding for challenging the validity of a DNA evidence association, and any evidence obtained from the sexual assault kit may not be excluded by a court on those grounds.

(5) A person accused or convicted of committing a crime against a victim has no standing to object to any failure to comply with the requirements of this section, and the failure to comply with the requirements of this section is not grounds for setting aside the conviction or sentence.

(6) Nothing in this section may be construed to create a private right of action or claim on the part of any individual, entity, or agency against any law enforcement agency or any contractor of any law enforcement agency. [2020 c 26 s 5; 2019 c 93 s 7. Formerly RCW 70.125.100.]

Intent—2020 c 26: See note following RCW 63.21.090.
