

RCW 51.04.062 Findings. The legislature finds that Washington state's workers' compensation system should be designed to focus on achieving the best outcomes for injured workers. Further, the legislature recognizes that controlling pension costs is key to a financially sound workers' compensation system for employers and workers. To these ends, the legislature recognizes that certain workers would benefit from an option that allows them to initiate claim resolution settlements in order to pursue work or retirement goals independent of the system, provided that sufficient protections for injured workers are included.
