

**RCW 70A.230.020 Fluorescent lamps—Labeling requirements.** (1)

Effective January 1, 2004, a manufacturer, wholesaler, or retailer may not knowingly sell at retail a fluorescent lamp if the fluorescent lamp contains mercury and was manufactured after November 30, 2003, unless the fluorescent lamp is labeled in accordance with the guidelines listed under subsection (2) of this section. Primary responsibility for affixing labels required under this section is on the manufacturer, and not on the wholesaler or retailer.

(2) Except as provided in subsection (3) of this section, a lamp is considered labeled pursuant to subsection (1) of this section if the lamp has all of the following:

(a) A label affixed to the lamp that displays the internationally recognized symbol for the element mercury; and

(b) A label on the lamp's packaging that: (i) Clearly informs the purchaser that mercury is present in the item; (ii) explains that the fluorescent lamp should be disposed of according to applicable federal, state, and local laws; and (iii) provides a toll-free telephone number, and a uniform resource locator internet address to a website, that contains information on applicable disposal laws.

(3) The manufacturer of a mercury-added lamp is in compliance with the requirements of this section if the manufacturer is in compliance with the labeling requirements of another state.

(4) The provisions of this section do not apply to products containing mercury-added lamps. [2003 c 260 § 3. Formerly RCW 70.95M.020.]
