

RCW 70A.455.130 Labeling a product "home compostable"—

Requirements. A producer may only label a product as being "home compostable" if:

(1) The product has been tested and meets ASTM standards D6400 or D6868 for industrial composting settings;

(2) A third-party certifier has verified that the product meets ASTM standards for industrial composting;

(3) The product is otherwise labeled in a manner consistent with the requirements of this chapter, including RCW 70A.455.030, 70A.455.040, or 70A.455.050, as appropriate;

(4) The product is not labeled "home compostable only" or in a manner that otherwise implies that the product is not capable of being composted in industrial compost settings; and

(5) The producer has valid and reproducible scientific evidence to support their claim that a product is home compostable, consistent with federal trade commission guidelines. [2024 c 341 s 503.]

Findings—Intent—2024 c 341: See note following RCW 70A.207.040.
