- RCW 70A.60.070 Recovery of regulated refrigerants. (1) A person who services or repairs or disposes of a motor vehicle air conditioning system; commercial or industrial air conditioning, heating, or refrigeration system; or consumer appliance shall use refrigerant extraction equipment to recover regulated refrigerants and substitutes that would otherwise be released into the atmosphere.
- (2) Upon request, the department shall provide information and assistance to persons interested in collecting, transporting, or recycling regulated refrigerants and substitutes.
- (3) The willful release of regulated refrigerants and substitutes from a source listed in subsection (1) of this section is prohibited. [2021 c 315 § 4; 1991 c 199 § 602. Formerly RCW 70A.15.6410, 70.94.970.]

Finding—1991 c 199: "The legislature finds that:

- (1) The release of chlorofluorocarbons and other ozone-depleting chemicals into the atmosphere contributes to the destruction of stratospheric ozone and threatens plant and animal life with harmful overexposure to ultraviolet radiation;
- (2) The technology and equipment to extract and recover chlorofluorocarbons and other ozone-depleting chemicals from air conditioners, refrigerators, and other appliances are available;
- (3) A number of nonessential consumer products contain ozone-depleting chemicals; and
- (4) Unnecessary releases of chlorofluorocarbons and other ozone-depleting chemicals from these sources should be eliminated." [1991 c 199 § 601.]

Finding—1991 c 199: See note following RCW 70A.15.1005.
