Findings—Intent—2019 c 311: "(1) The legislature finds that:

(a) The legislature recognized the important relationship between the citizens of the compact of free association (COFA) nations and the United States by enacting the COFA premium assistance program in 2018 to pay for premiums and out-of-pocket expenses for COFA citizens who purchase qualifying health coverage;

(b) While other Washingtonians who are income-eligible for medicaid receive dental coverage through apple health, individuals enrolled in the COFA premium assistance program do not currently have affordable access to dental coverage;

(c) Affordable access to dental care, including preventative care, is critical to treating the whole body health of an individual and preventing systemic health problems such as stroke, heart attack, and diabetes. Poor oral health is also associated with a wide range of hardships including difficulty obtaining employment, work absences due to pain, and decreased productivity; and

(d) Research shows that people living in households in which the primary language spoken at home is not English, seniors, people with disabilities, and people who identify as Native Hawaiian or Pacific Islanders are disproportionately impacted by oral health inequities.

(2) The legislature therefore intends to increase access to dental services for COFA islanders residing in Washington by establishing a dental services program that provides dental coverage to income-eligible members of this population." [2019 c 311 § 1.]
