

**RCW 74.13.242 Safety plan—Participants—High-potency synthetic opioids.** Subject to the availability of amounts appropriated for this specific purpose, the department shall establish a pilot program to include third-party safety plan participants and public health nurses in child protective services safety planning. The pilot program established in this section must:

(1) Include contracts in up to four department offices for third-party safety plan participants and public health nurses to support child protective services workers in safety planning; and

(2) Provide support for cases involving high-potency synthetic opioids and families who do not have natural supports to aid in safety planning. [2024 c 328 s 206.]

**Findings—Intent—2024 c 328:** See note following RCW 13.34.050.
