

RCW 78.52.120 Drilling permit required—Notice. Any person desiring or proposing to drill any well in search of oil or gas, before commencing the drilling of any such well, shall apply to the department upon such form as the department may prescribe, and shall pay to the state treasurer a fee of the following amounts for each application:

- (1) For each well the estimated depth of which is three thousand five hundred feet or less, two hundred fifty dollars;
- (2) From three thousand five hundred one feet to seven thousand feet, five hundred dollars;
- (3) From seven thousand one feet to twelve thousand feet, seven hundred fifty dollars; and
- (4) From twelve thousand one feet and deeper, one thousand dollars.

In addition, as pertains to the tract upon which the well is proposed to be located, the applicant must notify the surface landowner, the landowner's tenant, and other surface users in the manner provided by regulations of the department that a drilling permit has been applied for by furnishing each such surface landowner, tenant, and other users with a copy of the application concurrent with the filing of the application. Within fifteen days of receipt of the application, each such surface landowner, the landowner's tenant, and other surface users have the right to inform the department of objections or comments as to the proposed use of the surface by the applicant, and the department shall consider the objections or comments.

The drilling of any well is prohibited until a permit is given and such fee has been paid as provided in this section. The department may prescribe that the said form indicate the exact location of such well, the name and address of the owner, operator, contractor, driller, and any other person responsible for the conduct of drilling operations, the proposed depth of the well, the elevation of the well above sea level, and such other relevant and reasonable information as the department may deem necessary or convenient to effectuate the purposes of this chapter.

The department shall issue a permit if it finds that the proposed drilling will be consistent with this chapter, the rules and orders adopted under it, and is not detrimental to the public interest. The department shall impose conditions and restrictions as necessary to protect the public interest and to ensure compliance with this chapter, and the rules and orders adopted by the department. A person shall not apply to drill a well in search of oil or gas unless that person holds an ownership or contractual right to locate and operate the drilling operations upon the proposed drilling site. A person shall not be issued a permit unless that person prima facie holds an ownership or contractual right to drill to the proposed depth, or proposed horizon. Proof of prima facie ownership shall be presented to the department. [1994 sp.s. c 9 s 821; 1983 c 253 s 11; 1951 c 146 s 14.]
