

**RCW 79A.05.195 Identification of historic archaeological resources in state parks—Plan—Availability of land for use by recreational metal detectors.** (1) The commission shall develop a cost-effective plan to identify historic archaeological resources in at least one state park containing a military fort located in Puget Sound. The plan shall include the use of a professional archaeologist and volunteer citizens.

(2) Any parkland that is made available for use by recreational metal detectors under this section shall count toward the requirements established in RCW 79A.05.190. [1999 c 249 s 905; 1997 c 150 s 3. Formerly RCW 43.51.237.]

**Severability—1999 c 249:** See note following RCW 79A.05.010.
