# Employment Status of HCA Medical Assistance Clients and Persons with Dependents with HCA Medical Coverage

Statewide Data for CY 2014

By Firm Detail for January 2015 and June 2015

As Required by Engrossed Substitute House Bill 3079 (Chapter 264, Laws of 2006)

December 2015

## INTRODUCTION

Nationally, even well before the Affordable Care Act and Medicaid expansion, an increasing number of employers faced with rising employee health care premium costs either have chosen to drop health care benefits for their employees or to pass on to their employees a greater share of coverage costs. As a consequence, there have been trends towards more employees and their dependents applying for state purchased health care programs supported with public funds. In response to these trends, the 2006 State Legislature enacted Engrossed Substitute House Bill (ESHB) 3079. This legislation directed the Department of Social and Health Services (DSHS) and the Health Care Authority (HCA), in coordination with the Employment Security Department (ESD), to report annually on the employment of Medical Assistance clients.

This report provides both aggregate and employer-specific data related to HCA Medical Assistance clients and non-client parents with dependents with HCA medical coverage, as specified in the legislation (enacted as Chapter 264, Laws of 2006 and codified in RCW 74.09.053 and RCW 70.47.170).

Governor Gregoire signed ESHB 3079, but vetoed the emergency clause included in the bill. The Governor's veto message urged caution when interpreting information provided in this report:

The employer information to be provided by the Health Care Authority (HCA) and the Department of Social and Health Services (DSHS) is not a requirement for enrollment or eligibility. Consequently, data contained in the reports will have been provided on a voluntary basis, and will be unverified. The two reports—an employer specific report and an aggregated report—will originate from separate sources. Therefore, they will not be comparable. The reports will also be based on a point-in-time data collection and will therefore not reflect changes in employment status. These data limitations must be considered when interpreting the reports.

Please see the Data Sources and Limitations section on page 6 for a discussion of additional data limitations associated with this report.

ESHB 3079 directs the provision of two separate sets of information related to HCA Medical Assistance clients and non-client parents with dependents with HCA medical coverage:

- Aggregate data for calendar year (CY) 2014 by industry, firm size, and public/private ownership type. These data are based on ESD quarterly wage data.
- By-firm data for January and June 2015 for employers associated with 50 or more persons with HCA medical coverage. These data are based on DSHS Automated Client Eligibility System (ACES) employer name data.

## KEY FINDINGS – Medicaid and Related HCA Medical Clients

### Overview of Counts of Employed Persons Associated with HCA Medical Coverage and HCA Covered Lives Associated with Employed Persons Average per quarter in CY 2014

1. In the average quarter in CY 2014, there were 1,622,883 persons with HCA medical coverage, excluding clients who received only family planning coverage.
2. In the average quarter in CY 2014, there were 279,092 persons with HCA medical coverage and ESD-reported earnings in the quarter (see Table 2A “All Firms”). This represents about 17 percent of all persons with HCA medical coverage in the average quarter in CY 2014.
3. The 279,092 employed HCA clients had 216,236 dependents with HCA medical coverage, for an average quarterly total of 495,328 covered lives (see Table 2B “All Firms”). This is 31 percent of all persons with HCA coverage in the average quarter in CY 2014.
4. We use the term “employed non-client persons with dependents with HCA coverage” to refer to employed persons who do not have HCA coverage, but who have dependents with HCA coverage. In the average quarter in CY 2014, there were 137,429 employed non-client persons with dependents with HCA coverage (see Table 3A “All Firms”). There were 210,369 dependents with HCA coverage associated with these employed non-clients (see Table 3B “All Firms”). This represents 13 percent of all persons with HCA medical coverage in the average quarter in CY 2014.
5. Combining employed clients and non-client persons, there were 416,521 employed HCA clients or non-client persons with dependents with HCA medical coverage in the average calendar quarter in CY 2014 (see Table 1A “All Firms”).

6. In the average quarter in CY 2014, there were 705,696 HCA covered lives associated with the 416,521 employed HCA clients and persons with dependents with HCA medical coverage (Table 1B “All Firms”). This represents 43 percent of all persons with HCA medical coverage in the average quarter in CY 2014.
7. The 416,521 employed HCA medical clients or non-client persons with dependents with HCA medical coverage in CY 2014 represented a 38 percent increase over the 301,389 employed clients/persons observed in CY 2013. This increase is due to the implementation in January 2014 of expanded Medicaid coverage under the Affordable Care Act.
8. In CY 2014, about 61 percent of employed HCA clients and non-client persons with dependents with HCA coverage worked for firms with more than 50 employees (see Table 1A “By Firm Size”).
9. Employed non-client persons with dependents with HCA medical coverage worked more hours than employed HCA medical clients. More than half (53 percent) of employed non-client persons with dependents with HCA coverage worked full-time (more than 455 hours) in the quarter (Table 3A “All Firms”), compared to only 21 percent of employed clients (Table 2A “All Firms”).
10. There were 8 million months of HCA medical coverage in CY 2014 associated with employed HCA clients and non-client persons with dependents with HCA medical coverage. About 71 percent of the months were associated with employed HCA clients (5.7 million coverage months), and about 29 percent were associated with employed non-client persons with dependents with HCA coverage (2.3 million coverage months).
11. Estimated HCA medical and DSHS mental health expenditures for the months of coverage associated with employed clients and non-client persons with dependents with HCA coverage were \$2.658 billion in CY 2014 (all funds). Of this total, approximately \$2.064 billion were associated with employed HCA medical clients, and \$594 million were associated with employed non-client persons with dependents with HCA medical coverage.
12. Associated annual HCA coverage costs were greatest for persons employed in the following industries: Health and Social Assistance (\$462 million); Retail Trade (\$360 million); and Accommodation and Food Services (\$347 million).
13. Almost all (92.9 percent) of the annual HCA coverage costs were associated with private employers (\$2.457 billion), as opposed to public employers (\$198 million).
14. Detailed information for the largest employers of HCA clients and non-client persons with dependents with HCA coverage can be found in the supplemental tables at the end of this report.

## EMPLOYMENT TRENDS – Medicaid and Related HCA Medical Clients

The table below provides an overview of the trend in the proportion of HCA medical clients associated with employment from 2005 to 2014, as identified using ESD quarterly earnings data. Some of the year-to-year variation in the table below is the result of slight changes in data processing methods over the reporting period. These trends exclude Basic Health Plan enrollees.

**HCA Medical Program's Employed Clients and Non-Client Persons with Dependents with HCA Medical Coverage**

	Employed HCA Clients and Non-HCA Clients with Dependent HCA Clients	Average Quarterly HCA Medical Covered Lives Associated with Employment	Average Quarterly Total HCA Enrollment	Percent of Total HCA Enrollment Associated with Employment
CY 2005	240,062	425,765	936,860	45%
CY 2006	243,114	427,448	908,870	47%
CY 2007	231,111	404,026	915,322	44%
CY 2008	256,489	440,925	975,218	45%
CY 2009	259,628	453,695	1,054,239	43%
CY 2011	307,202	504,926	1,165,487	43%
CY 2012	308,822	515,264	1,165,942	44%
CY 2013	301,389	484,328	1,166,612	42%
CY 2014	416,521	705,696	1,622,883	43%

## DATA SOURCES AND LIMITATIONS

Aggregate data by industry, firm size, and public/private ownership type are based on ESD quarterly earnings data and monthly medical eligibility data for CY 2014. ESD earnings data do not include self-employment, federal government employment, or unreported earnings.

By-firm data for Medicaid and related HCA clients are based on ACES employer name data linked to medical eligibility data for January and June 2015. ACES employer name information does not permit the identification of separately owned franchises operating under the same business name. The employer name information used in this report is self-reported, is not a required element of the application for public assistance and is not independently verified by staff. Employer rankings are based on the average monthly number of employed persons associated with HCA medical clients in January and June 2015.

The creation of “households” for these analyses depends on assistance unit information in the ACES data system. From the perspective of creating household units from ACES data, limitations are likely to become more significant for measurement of the CY 2014 experience as more coverage groups have medical eligibility determined outside of the ACES data system.

The tables report the number of HCA clients or persons with dependents with HCA medical coverage who were employed, and the associated “member months” by type of coverage. Coverage type was determined based on ProviderOne RAC codes.

**The Family Medical / Pregnant Women coverage group** includes persons receiving TANF and related “classic” Medicaid medical coverage, as well as persons enrolled in Medicaid coverage for low-income pregnant women.

**The Apple Health for Kids program** provides medical coverage to children in families that do not meet TANF eligibility criteria but have household income below 200 percent of the Federal Poverty Guideline (FPL) through Medicaid funding, 300 percent of FPL through the Children's Health Insurance Program (CHIP) funding, and up to 300 percent of the FPL for non-citizen children through the Children's Health Program (CHP). This coverage group also includes a small number of children enrolled in Foster Care or Adoptions Support coverage.

**The New Adult coverage group** includes adults eligible for expanded Medicaid coverage under the Affordable Care Act.

**The Persons with Disabilities coverage group** includes persons enrolled in Medicaid Disabled or Blind coverage groups.

**The "Other" coverage group** includes a small number of persons receiving HCA medical coverage through programs for refugees and the elderly. Clients who received family planning coverage only were excluded from the analysis.

Employed non-client persons with dependents with HCA medical coverage were counted if they were part of a household with at least one person who received HCA medical coverage. To be counted, the employed person had to be identified as the head of household, spouse, or unmarried co-parent of a child in common with the head of household.

Counts of employed clients or persons with dependents with HCA medical coverage were associated with a single "primary employer" in each month. The vast majority of employed clients or persons with dependents with HCA medical coverage had a single employer in the quarter. In cases where the person had more than one employer in the quarter, the primary employer was defined as the employer from whom the person received the greatest earnings.

To create an unduplicated count of member months and expenditures associated with employed persons, in the cases where a dependent was associated with more than one employed person, we associated the dependent with the person who had the highest earnings. For both the aggregate and by-firm data tables, per member per month HCA Medical Assistance expenditure estimates were based on per capita estimates for CY 2014. Per member per month DSHS Mental Health expenditure estimates were based on statewide average RSN capitation rates for CY 2014.
