Re: Transmittal of Report on Fish Passage Study required under Sec 102 of
ESHB 2190

Dear Senator Eide, Senator King, and Representative Clibborn:

Attached is Washington Department of Fish & Wildlife's (WDFW) final report summarizing the results of the study to inventory, assess, and prioritize fish passage barriers associated with city roads and streets in the Puget Sound Region. The transmittal of this report satisfies the final provision of Sec 102 of ESHB 2190 (Chapter 86, Laws of 2012), which required WSDOT to submit the results of the study to the Transportation Committees of the Legislature and the Office of Financial Management.

All data on fish passage barriers that were collected as a part of this study have now been entered into the WDFW's Fish Passage Database, which is the central data source on fish passage in Washington State. Detailed information or questions regarding the study should be directed to Julie Henning, WDFW's Fish Passage Section Manager at 360-902-2555 or by e-mail at Julie.Henning@dfw.wa.gov.

Sincerely,

Kathleen B. Davis
Director
Highways & Local Programs
