SENT VIA EMAIL

Director David Schumacher Office of Financial Management Senator Marko Liias, Chair Senate Transportation Committee

Representative Jake Fey, Chair House Transportation Committee

Dear Director Schumacher, Senator Liias, and Representative Fey:

This letter transmits to you the quarterly project delivery status report for the second quarter of the 2023-25 biennium, as required in Section 312 of Chapter 472, Laws of 2023 (ESHB 1125). A copy of the Section 312 is attached. These reports provide status on scope, schedule, and budget through the quarter ending December 2023 for all capital projects. This report includes new projects added using programmatic funding provided by the Legislature. Not included in the report are public transportation projects funded through the department's operating program or projects being constructed for Sound Transit under a reimbursable agreement. Brief explanations for variances have been provided according to the following:

- Cost: An estimated cost increase or decrease greater than \$500,000 of the project's total cost or 2023-25 appropriation.
- Schedule: A milestone delay that extends the project in excess of one quarter.
- Scope: A proposed change in the nature of the work included in the project that deviates from the legislative intent of the project.

This report aligns with the LEAP Transportation Document 2023-2 ALL PROJECTS as developed April 21, 2023. The format for these reports was designed to provide the information as directed in the proviso and was developed in cooperation with staff from the Office of Financial Management and Legislative transportation committees.

If you have questions on the attached material or need additional information, please contact me at (360) 705-7121 or suingt@wsdot.wa.gov.

Sincerely,

[Signature on File]

Troy A. Suing, Director Capital Program Development and Management Division

- NEW SECTION. Sec. 312. QUARTERLY REPORTING REQUIREMENTS FOR CAPITAL PROGRAM
- 9 On a quarterly basis, the department of transportation shall
- 10 provide to the office of financial management and the legislative
- 11 transportation committees a report for all capital projects in a
- 12 manner consistent with past practices as specified in section 313,
- 13 chapter 186, Laws of 2022.

- 31 Sec. 311. 2021 c 333 s 313 (uncodified) is amended to read as 32 follows:
- 33 QUARTERLY REPORTING REQUIREMENTS FOR CAPITAL PROGRAM
- On a quarterly basis, the department of transportation shall provide to the office of financial management and the legislative transportation committees a report for all capital projects, except for ferry projects subject to the reporting requirements established

p. 109 ESSB 5689.SL

- in section 309 ((<del>of this act</del>)), chapter 333, Laws of 2021, that must include:
- 3 (1) A TEIS version containing actual capital expenditures for all 4 projects consistent with the structure of the most recently enacted 5 budget;
- 6 (2) Anticipated cost savings, cost increases, reappropriations, 7 and schedule adjustments for all projects consistent with the 8 structure of the most recently enacted budget;
- 9 (3) The award amount, the engineer's estimate, and the number of 10 bidders for all active projects consistent with the structure of the 11 most recently enacted budget; and
- 12 (4) Risk reserves and contingency amounts for all projects 13 consistent with the structure of the most recently enacted budget.

#### **Sec. 311.** 2021 c 333 s 313 (uncodified) is amended to read as follows: **QUARTERLY REPORTING REQUIREMENTS FOR CAPITAL PROGRAM**

On a quarterly basis, the department of transportation shall provide to the office of financial management and the legislative transportation committees a report for all capital projects, except for ferry projects subject to the reporting requirements established in section 309 ((of this act)), chapter 333, Laws of 2021, that must include:

- (1) A TEIS version containing actual capital expenditures for all projects consistent with the structure of the most recently enacted budget;
- (2) Anticipated cost savings, cost increases, reappropriations, and schedule adjustments for all projects consistent with the structure of the most recently enacted budget;
- (3) The award amount, the engineer's estimate, and the number of bidders for all active projects consistent with the structure of the most recently enacted budget; and
- (4) Risk reserves and contingency amounts for all projects consistent with the structure of the most recently enacted budget.

An increase is shown as a 405 Toll fund source. There is also a decrease in the I-405 Rehabilitation & Replacement BIN (1405RRT) in the preservation program, as the SR 167 Toll Upgrade project allows some Toll system preservation previously planned in this BIN to no longer be necessary. |

| W2      | L2021131 | Future Hybrid Electric Ferry Class<br>Pre-Design Study             |                                  | 1,500,000                 | 1,500,000           | 3,000,000                        | 3,000,000                 |                     |                   |           |             |        | Previously requested, and still desired. Each day that this pre-design study is delayed will result with a day delay on delivery. Each day in delay will mean extending older less reliable ships. This will cause service disruptions and increased maintenance preservation needs for overall fleet to maintain older ships. |

#### Notes:

- 1. Represents final legislative TEIS versions (22LEGCOR)
- 2. In addition to risk reserves established to mitigate known risks, each project includes an amount for unknown risk or contingency. This amount may vary, but department guidelines state that it should typically be 4% of the contract amount.
- 3. Explanations are provided for variances greater than \$500,000/biennium or \$500,000/total project cost when compared to the latest legislative final TEIS version.
- 4. Explanations are provided for variances greater than 3 months in Advertisement Date or in Operationally Complete Date when compared to the latest legislative final TEIS version.
- 5. There may be more than one contract associated with a PIN or BIN. Also, the award amount will be different than the construction engineering, and contingency, etc.). Additionaly, a contract may be associated with more than one BIN and the same
- 6. Individual contract information in the programmatic BIN is not included in this report.
