

WAC 110-147-1635 Am I required to assess a child's need for immediate medical attention? (1) When a child first enters out-of-home care, an initial health screen is required as soon as possible, but no later than five days after entering your program.

(2) You must also make reasonable attempts to obtain the following health history:

- (a) Allergies;
- (b) All currently prescribed medications; and
- (c) Any special physical or mental health issues.

(3) If the child remains in placement beyond 72 hours, you must contact the child's DCYF caseworker, parent, or guardian to obtain the following information:

- (a) The date of the child's last physical and dental exams;
- (b) Their history of immunizations; and
- (c) Clinical and medical diagnoses and treatment plans.

(4) When a child leaves your care, the health history of the child must be retained by your agency or returned to the department.

(5) You should refer to the department of health's dental care brochure, Publication Nos. 920-923 through 920-928, as guides for maintaining proper dental care for children.
