

WAC 132F-164-040 Bid lists. Bid lists for various commodities may be maintained by the district, and this information may be exchanged between state agencies and institutions. (Note: It is obvious that for geographical reasons, some vendors names will appear on bid lists of some institutions and not on others, so that the addition or deletion of names from a bid list will consider biographical advantages as well as competitive advantage.)

[Order 11, § 132F-164-040, filed 4/19/73.]
