

WAC 212-90-205 Suspension or revocation of certificates. (1)

The director may refuse to issue or renew or may suspend or revoke the privilege of a certificate holder to engage in the fire protection sprinkler system business. The director may establish penalties against a person or company who violates any provision of chapter 18.270 RCW or any provision of this chapter while he or she is engaged in the trade of sprinkler fitting.

(2) The licensed contractor or certificate holder will be notified in writing of the action.

(3) The director may deny, suspend, or revoke a certificate under the following process:

(a) The director must give the licensed contractor or certificate holder notice of the action and an opportunity to be heard as prescribed in chapter 34.05 RCW before the denial, suspension, or revocation of the certificate.

(b) Upon receiving notice of the denial, suspension, or revocation action, the licensed contractor or certificate holder may, within 30 days from the date of the notice of action, request in writing to the director a hearing on the denial, suspension, or revocation of the certificate. An adjudicative proceeding will be commenced within 90 days of the receipt of a hearing request. Failure to request a hearing, or failure to appear at a requested hearing, a prehearing conference, or any other stage of an adjudicative proceeding, will constitute default and may result in the entry of a final order under RCW 34.05.440.

(c) Upon receiving a hearing request, the director may, at the request of the licensed contractor or certificate holder, or on his or her own initiative, schedule an informal settlement conference which will be without prejudice to the rights of the parties. The informal settlement conference will be held in Thurston County at a mutually agreed upon time and may result in a settlement agreement. If no agreement is reached, a hearing will be scheduled as outlined in chapter 34.05 RCW.

(d) The director may, without prior notification to the licensed contractor or certificate holder, deny, suspend, or revoke a certificate if the director finds that there is a danger to the public health, safety, or welfare that requires immediate action. In every summary suspension of a certificate, an order signed by the director or designee must be entered, in compliance with the provisions of RCW 34.05.479. Administrative proceedings consistent with chapter 34.05 RCW for revocation or other action shall be promptly instated and determined. The director must give notice as is practicable to the licensed contractor or certificate holder.

(4) The following penalties are associated with performing fire protection sprinkler system fitter work while a certificate is denied, suspended, or revoked:

(a) Any person engaged in the trade of sprinkler fitting while his or her certificate is denied, suspended, or revoked, will be issued a Level 3 violation.

(b) Any licensed or unlicensed fire protection sprinkler system contractor that allows an employee or trainee to engage in the trade of sprinkler fitting while his or her license or certificate has been denied, suspended, or revoked, will be issued a Level 3 violation.
