

WAC 246-12-601 Purpose. The purpose of WAC 246-12-610 through 246-12-650 is to set minimum standards for suicide prevention trainings for health care professionals to be included on a model list of department of health-approved trainings. Both trainers and health care professions may set standards for trainings that exceed these standards. Training specific to a profession must comply with that profession's rules for continuing education.
