

WAC 246-224-0050 Radiation machine facility registration process.

(1) A registrant shall register a radiation machine facility with the department through submission of a business license application and appropriate addendum used by BLS no later than fifteen calendar days after initial use unless a shielding plan review is required.

(2) When a radiation machine facility requires a shielding plan review, the registrant shall register with BLS and submit plans to the department for review prior to construction or installation of radiation machines according to WAC 246-225-030 General requirements—Plan review.

(3) Registration is valid for one year from the department approval date, or any other date as may be determined by BLS.

(4) A registrant shall submit registration information and applicable fees identified in WAC 246-254-053 Radiation machine facility fees to BLS in accordance with BLS instructions.
