

WAC 246-720-060 Milk bank standard operating procedures. A milk bank must maintain detailed standard operating procedures that are available to all staff. Standard operating procedures must be updated every two years. Standard operating procedures must include, at a minimum, procedures addressing the following:

- (1) Donor screening and serological testing;
- (2) Pasteurization or thermal processing;
- (3) Microbiological testing;
- (4) Receiving, storage, and transport of donor milk;
- (5) Sanitation and cGMPs;
- (6) Emergency preparedness;
- (7) Recall.

[Statutory Authority: 2022 c 236. WSR 23-17-149, § 246-720-060, filed 8/22/23, effective 9/22/23.]
