

**WAC 246-840-750 Philosophy governing voluntary substance use monitoring programs.** The Washington state board of nursing (board) recognizes the need to establish a means of providing early recognition and treatment options for licensed practical nurses or registered nurses whose competency may be impaired due to the use of drugs or alcohol. The board intends that such nurses be treated, and their treatment monitored so that they can return to or continue to practice their profession in a manner, that safeguards the public. The Washington health professional services (WHPS) program is the board's approved substance use monitoring program under RCW 18.130.175. The board may refer licensed practical nurses or registered nurses to WHPS as either an alternative to or in connection with disciplinary actions under RCW 18.130.160.
