

WAC 388-114-0100 How does the individual provider work week limit affect the individual provider's responsibilities in WAC 388-71-0515? In addition to the responsibilities detailed in WAC 388-71-0515, the individual provider must:

(1) Communicate and coordinate with each of his or her clients about how many service hours the individual provider is allowed and available to work each week; and

(2) Not accept assignments or changes in schedules for clients that would require the individual provider to work more than his or her work week limit unless it is to respond to an unexpected health or safety need of the client that cannot be postponed.
