

WAC 468-86-100 Regional transportation strategy. Each regional transportation planning organization shall develop a regional transportation strategy. The strategy should identify alternative transportation modes within the region and recommend policies to:

- (1) Address each transportation mode;
- (2) Address intermodal connections between modes; and
- (3) Address transportation demand management where required.

The regional transportation strategy is intended to guide development of the regional transportation plan and any periodic updates.

Adopted multicounty and county-wide planning policies and policies from local comprehensive plans that are regional in scope and regionally consistent should provide the basis for the regional transportation strategy. The regional transportation strategy should be periodically reviewed and updated as necessary to reflect changing priorities or to maintain regional consistency.
