35 DELIVERY. The Washington state patrol, the department of licensing,
36 and the department of ecology shall coordinate their activities when
37 siting facilities and setting program delivery approaches related to
38 vehicle licensing and registration. This action shall result in the

1 coordination of driver and vehicle licensing, vehicle emission testing,
2 and vehicle inspection service whenever practical in order to improve
3 client services. Collocation should be considered along with options
4 in the operating budget related to integration of programs and changes
5 in assignment of responsibility among affected agencies.

6 NEW SECTION. **Sec. 804.** FOR THE ARTS COMMISSION--ART WORK
7 ALLOWANCE POOLING. (1) One-half of one percent of moneys appropriated
8 in this act for original construction of school plant facilities is
9 provided solely for the purposes of RCW 28A.335.210. The Washington
10 state arts commission may combine the proceeds from individual projects
11 in order to fund larger works of art or mobile art displays in
12 consultation with the superintendent of public instruction and
13 representatives of school district boards.

14 (2) One-half of one percent of moneys appropriated in this act for
15 original construction or any major renovation or remodel work exceeding
16 two hundred thousand dollars by colleges or universities is provided
17 solely for the purposes of RCW 28B.10.027. The Washington state arts
18 commission may combine the proceeds from individual projects in order
19 to fund larger works of art or mobile art displays in consultation with
20 the board of regents or trustees.

21 (3) One-half of one percent of moneys appropriated in this act for
22 original construction of any public building by a state agency as
23 defined in RCW 43.17.200 is provided solely for the purposes of RCW
24 43.17.200. The Washington state arts commission may combine the
25 proceeds from individual projects in order to fund larger works of art
26 or mobile art displays in consultation with the state agency. For
27 department of corrections construction projects, the Washington state
28 arts commission shall give priority to selecting works of art produced
29 by inmates.

30 (4) At least eighty-five percent of the moneys spent by the
31 Washington state arts commission during the 1995-97 biennium for the
32 purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 shall be spent
33 solely for direct acquisition of works of art.

34 NEW SECTION. **Sec. 805.** The amounts shown under the headings
35 "Prior Biennia," "Future Biennia," and "Total" in this act are for
36 informational purposes only and do not constitute legislative approval
37 of these amounts.

1 NEW SECTION. **Sec. 806.** "Reappropriations" in this act are
2 appropriations and, unless the context clearly provides otherwise, are
3 subject to the relevant conditions and limitations applicable to
4 appropriations. Reappropriations shall be limited to the unexpended
5 balances remaining June 30, 1995 in the 1993-95 biennial appropriations
6 for each project.

7 NEW SECTION. **Sec. 807.** To carry out the provisions of this act,
8 the governor may assign responsibility for predesign, design,
9 construction, and other related activities to any appropriate agency.

10 NEW SECTION. **Sec. 808.** If any federal moneys appropriated by
11 this act for capital projects are not received by the state, the
12 department or agency to which the moneys were appropriated may replace
13 the federal moneys with funds available from private or local sources.
14 No replacement may occur under this section without the prior approval
15 of the director of financial management in consultation with the senate
16 committee on ways and means and the house of representatives committee
17 on capital budget.

18 NEW SECTION. **Sec. 809.** (1) Unless otherwise stated, for all
19 appropriations under this act that require a match of nonstate money or
20 in-kind contributions, the following requirement, consistent with RCW
21 43.88.150, shall apply: Expenditures of state money shall be timed so
22 that the state share of project expenditures never exceeds the intended
23 state share of total project costs.

24 (2) Provision of the full amount of required matching funds is not
25 required to permit the expenditure of capital budget appropriations for
26 phased projects if a proportional amount of the required matching funds
27 is provided for each distinct, identifiable phase of the project.

28 NEW SECTION. **Sec. 810.** Notwithstanding any other provisions of
29 law, for the 1995-97 biennium, transfers of reimbursement by the state
30 treasurer to the general fund from the community college capital
31 projects account for debt service payments made under Title 28B RCW
32 shall occur only after such debt service payment has been made and only
33 to the extent that funds are actually available to the account. Any
34 unpaid reimbursements shall be a continuing obligation against the
35 community college capital projects account until paid. The state board

1 for community and technical colleges need not accumulate any specific
2 balance in the community college capital projects account in
3 anticipation of transfers to reimburse the general fund.

4 NEW SECTION. **Sec. 811.** Any capital improvements or capital
5 projects involving construction or major expansion of a state office
6 facility, including, but not limited to, district headquarters,
7 detachment offices, and off-campus faculty offices, shall be reviewed
8 by the office of financial management and the department of general
9 administration for possible consolidation, collocation, and compliance
10 with state office standards before allotment of funds. The intent of
11 the requirement imposed by this section is to eliminate duplication and
12 reduce total office space requirements where feasible, while ensuring
13 proper service to the public.

14 NEW SECTION. **Sec. 812.** The governor, through the office of
15 financial management, may authorize a transfer of appropriation
16 authority provided for a capital project that is in excess of the
17 amount required for the completion of such project to another capital
18 project for which the appropriation is insufficient. No such transfer
19 may be used to expand the capacity of any facility beyond that intended
20 by the legislature in making the appropriation. Such transfers may be
21 effected only between capital appropriations to a specific department,
22 commission, agency, or institution of higher education and only between
23 capital projects that are funded from the same fund or account.

24 For purposes of this section, the governor may find that an amount
25 is in excess of the amount required for the completion of a project
26 only if: (1) The project as defined in the notes to the budget
27 document is substantially complete and there are funds remaining; or
28 (2) bids have been let on a project and it appears to a substantial
29 certainty that the project as defined in the notes to the budget
30 document can be completed within the biennium for less than the amount
31 appropriated in this act.

32 For the purposes of this section, the legislature intends that
33 each project be defined as proposed to the legislature in the
34 governor's budget document, unless it clearly appears from the
35 legislative history that the legislature intended to define the scope
36 of a project in a different way.

1 A report of any transfer effected under this section except
2 emergency projects or any transfer under \$250,000 shall be filed with
3 the legislative fiscal committees of the senate and house of
4 representatives by the director of financial management at least thirty
5 days before the date the transfer is effected, and shall report all
6 emergency or smaller transfers within thirty days from the date of
7 transfer.

8 NEW SECTION. **Sec. 813.** To ensure that major construction
9 projects are carried out in accordance with legislative and executive
10 intent, appropriations in this act referencing this section or in
11 excess of \$5,000,000 shall not be expended until the office of
12 financial management has reviewed the agency's predesign and other
13 documents and approved an allotment for the project. The predesign
14 document shall include but not be limited to program, site, and cost
15 analysis in accordance with the predesign manual adopted by the office
16 of financial management.

17 NEW SECTION. **Sec. 814.** Allotments for appropriations shall be
18 provided in accordance with the capital project review requirements
19 adopted by the office of financial management. The office of financial
20 management shall notify the house of representatives capital budget
21 committee and the senate ways and means committee of allotment releases
22 based on review by the office of financial management.

23 NEW SECTION. **Sec. 815.** Appropriations for design and
24 construction of facilities on higher education branch campuses shall
25 proceed only after funds are allotted to institutions of higher
26 education on the basis of: (1) Comparable unit cost standards, as
27 determined by the office of financial management in consultation with
28 the higher education coordinating board; (2) costs consistent with
29 other higher education teaching facilities in the state; and (3)
30 student full-time equivalent enrollment levels as established by the
31 office of financial management in consultation with the higher
32 education coordinating board.

33 NEW SECTION. **Sec. 816.** The department of information services
34 shall act as lead agency in coordinating video telecommunications
35 services for state agencies. As lead agency, the department shall

1 develop standards and common specifications for leased and purchased
2 telecommunications equipment and assist state agencies in developing a
3 video telecommunications expenditure plan. No agency may spend any
4 portion of any appropriation in this act for new video
5 telecommunications equipment, new video telecommunications
6 transmission, or new video telecommunications systems without first
7 complying with chapter 43.105 RCW, including but not limited to RCW
8 43.105.041(2), and without first submitting a video telecommunications
9 equipment expenditure plan, in accordance with the policies of the
10 department of information services, for review and assessment by the
11 department of information services under RCW 43.105.052. Before any
12 such expenditure by a public school, a video telecommunications
13 expenditure plan shall be approved by the superintendent of public
14 instruction. The office of the superintendent of public instruction
15 shall submit the plans to the department of information services in a
16 form prescribed by the department. The office of the superintendent of
17 public instruction shall coordinate the use of the video
18 telecommunications in public schools by providing educational
19 information to local school districts and shall assist local school
20 districts and educational service districts in telecommunications
21 planning and curriculum development. Before any such expenditure by a
22 public institution of postsecondary education, a telecommunications
23 expenditure plan shall be approved by the higher education coordinating
24 board. The higher education coordinating board shall coordinate the
25 use of video telecommunications for instruction and instructional
26 support in postsecondary education, including the review and approval
27 of instructional telecommunications course offerings.

28 NEW SECTION. **Sec. 817.** If any provision of this act or its
29 application to any person or circumstance is held invalid, the
30 remainder of the act or the application of the provision to other
31 persons or circumstances is not affected.

32 NEW SECTION. **Sec. 818.** This act is necessary for the immediate
33 preservation of the public peace, health, or safety, or support of the
34 state government and its existing public institutions, and shall take
35 effect immediately.
