Brief Title: Authorizing reclaimed water demonstration projects.

SB 5882 - DIGEST

Directs the department of ecology to establish and administer a reclaimed water demonstration program for the purposes of funding and monitoring the progress of five demonstration projects. The department shall work in cooperation with the department of health.

Provides that, by September 30, 1997, the department of ecology shall enter into a grant agreement with the demonstration project jurisdictions that includes reporting requirements, timelines, and a fund disbursement schedule based on the agreed project milestones.

Makes appropriations to carry out the purposes of the act.
