Brief Title: Guiding state and local governments in the development of habitat conservation plans.

SB 6444 - DIGEST

Declares an intent to provide policy guidance to state and local government representatives in the development of habitat conservation plans or similar agreements to which the state or its subdivisions will be a party, to ensure maximum fairness and consistency in the treatment of citizens affected by these agreements.

Directs the governor to issue model guidelines for use by state and local agency representatives when participating in the development of habitat conservation plan agreements.
