Background:

The Department of Health (DOH) currently licenses pharmacies located in Washington, and out-of-state pharmacies that provide services to Washington residents. The DOH maintains reciprocal licensing agreements with other state's pharmacy licensing authorities. The DOH does not license pharmacies located in foreign countries.

Summary of Amended Bill:

The Board of Pharmacy, in consultation with the DOH and the Health Care Authority, will submit a waiver request to the federal Food and Drug Administration that will authorize the State of Washington to license Canadian, United Kingdom, Irish, and other nondomestic prescription drug wholesalers under RCW 18.64.046. This will provide retail pharmacies licensed in Washington the opportunity to purchase prescription drugs from approved wholesalers and pass those savings on to consumers. By December 1, 2005, the Board of Pharmacy will submit a detailed implementation plan to the Governor and appropriate committees of the Legislature that includes the mechanisms that the board will use to implement each component of the federal waiver.

Appropriation: None.

Fiscal Note: Available.

Effective Date of Amended Bill: The bill takes effect 90 days after adjournment of session in which bill is passed.

Testimony For: (Health Care) (In support) Prescription drugs are too expensive for many Americans. Our citizens should be able to take advantage of lower prescription drug prices in other countries.

(With concerns) Some drugs are too sensitive and unstable to ship from one country to another. These classes of drugs should be excluded from any importation scheme.

Testimony For: (Appropriations) This bill represents one strategy in the Governor's thinking about how we can reduce the cost of prescription drugs. We recognize that the Food and Drug Administration may not grant our request, but we think it is an important enough issue to raise it to that level and there is movement at the federal level on this issue.

Testimony Against: (Health Care) None.
