

**SHB 1968** - H AMD 373

By Representative Condotta

WITHDRAWN 3/14/2007

1           On page 2, line 2, after "lines" strike "linear detection  
2 systems, aspirating detection systems,"

**EFFECT:** Narrows the types of sprinkler fitting equipment for which certification is required to sprinkler, standpipe, hose, or other systems connected to a building's primary water supply, sprinkler tank heaters, air lines, and attached tanks and pumps, and not linear or aspirating detection systems.
