Hearing Date: 3/13/09

Background:

State law regulates many aspects of the distribution, sale, and lease of motor vehicles by dealers and manufacturers. Several practices by dealers and manufacturers are prohibited. A violation of one of these prohibitions is a misdemeanor. A civil action for any of the violations may also be brought in superior court to seek an injunction, and recover actual damages and costs of the litigation, including reasonable attorneys' fees. In addition, violations are a violation of the Consumer Protection Act.

Summary of Bill:

Unlawful practices are added. A dealer may not enter into a new motor vehicle sales contract without disclosing to a buyer of the vehicle, or to a dealer in the case of an unregistered motor vehicle, any known damage and repair to the vehicle if the damage exceeds 5 percent of the manufacturer's suggested retail price or \$1,000, whichever is greater. A manufacturer is also

required to disclose any known damage or repair to a dealer. Manufacturers and dealers are not required to disclose that glass, tires, bumpers, or cosmetic parts of a new vehicle were damaged if the damaged item has been replaced with original or comparable equipment.

"Cosmetic parts" are defined as parts that are attached by and can be replaced in total through the use of screws, bolts, or other fasteners without the use of welding or thermal cutting, and includes windshields, bumpers, hoods, or trim panels.

A "manufacturer's suggested retail price" means the retail price of the new motor vehicle suggested by the manufacturer, and includes each accessory or item of optional equipment physically attached to the new motor vehicle at the time of delivery to the new motor vehicle dealer that is not included within the retail price suggested by the manufacturer for the new motor vehicle.

If disclosure is not required, a buyer may not revoke or rescind a sales contract due to the fact that the new motor vehicle was damaged and repaired before completion of the sale.
