Finding—Intent—2008 c 16: "The legislature finds the multiple state licensing and registering requirements for certified public accountants to be cumbersome and an unnecessary constraint on the consumers of professional certified public accountant services. In the majority of United States jurisdictions, certified public accountants are licensed based on substantially equivalent education, national exam, and experience requirements. Yet in order to serve their various client needs, certified public accountants must often delay service while they first spend countless hours and dollars to register with regulators in the jurisdictions of the client.

To clarify the legislative intent of chapter 294, Laws of 2001, reduce the administrative licensing burden on certified public accountants licensed in any substantially equivalent jurisdiction, and facilitate consumer choice, the legislature intends to eliminate the requirement for out-of-state certified public accountants to notify the Washington state board of accountancy of intent to practice and pay a fee; however, firms providing audit or opinion-type services would be required to be licensed in this state. The requirement for notification will be replaced with "consent to automatic jurisdiction," which clarifies the legal disciplinary authority of the Washington state board of accountancy over out-of-state certified public accountants practicing in Washington state. This allows the board to more efficiently protect consumers while facilitating practice mobility and consumer choice." [2008 c 16 § 1.]
