**RCW 18.290.030 Construction.** Nothing in this chapter shall be construed to prohibit or restrict:

(1) An individual who holds a credential issued by this state, other than as a genetic counselor, to engage in the practice of that occupation or profession without obtaining an additional credential from the state. The individual may not use the title genetic counselor unless licensed as such in this state;

(2) The practice of genetic counseling by a person who is employed by the government of the United States while engaged in the performance of duties prescribed by the laws of the United States;

(3) The practice of genetic counseling by a person who is a regular student in an educational program approved by the secretary, and whose performance of services is pursuant to a regular course of instruction or assignments from an instructor and under the general supervision of the instructor; or

(4) The practice of genetic counseling by a person who is practicing under the general supervision of a genetic counselor in a genetic counseling training site while gathering logbook cases for the purpose of meeting licensing requirements. [2009 c 302 s 3.]

**RCW 18.290.040 Licensing requirements.** The secretary shall issue a license to any applicant who demonstrates to the satisfaction of the secretary that the applicant meets the following requirements:

(1) Graduation from a master's or doctorate program in genetic counseling or medical genetics approved by the secretary;

(2) Successful completion of any clinical experience requirements established by the secretary; and

(3) Successful completion of an examination administered or approved by the secretary. [2009 c 302 s 4.]

**RCW 18.290.050 Examinations.** (1) The date and location of examinations must be established by the secretary. Applicants who have been found by the secretary to meet the other requirements for obtaining a license must be scheduled for the next examination following the filing of the application. The secretary shall establish by rule the examination application deadline.

(2) The secretary or the secretary's designees shall examine each applicant, by means determined most effective, on subjects appropriate to the scope of practice, as applicable. The examinations must be limited to the purpose of determining whether the applicant possesses the minimum skill and knowledge necessary to practice competently.

(3) The examination papers, all grading of the papers, and the grading of any practical work shall be preserved for a period of not less than one year after the secretary has made and published the decisions. All examinations must be conducted under fair and wholly impartial methods.

(4) Any applicant failing to make the required grade in the first examination may take up to two subsequent examinations as the applicant desires upon prepaying a fee determined by the secretary under RCW 43.70.250 for each subsequent examination. Upon failing four examinations, the secretary may invalidate the original application and require remedial education before the person may take future examinations.

[2009 c 302 s 8.]
