**Findings—Intent—2020 c 13:** "(1) The legislature finds that:

(a) Interscholastic athletics and activities are a vital part of enriching students' educational experiences and developing students into responsible adults;

(b) Research supports the theory that students who participate in extracurricular activities have:

(i) Better grades and higher standardized test scores;

(ii) Increased school attendance;

(iii) Improved health and wellness; and

(iv) Positively enhanced educational experience[s];

(c) Many school districts require associated student body cards to participate in extracurricular activities and many school districts charge a fee for associated student body cards;

(d) Many school districts require a participation fee for some extracurricular activities; and

(e) The fees associated with obtaining associated student body cards and with participating in extracurricular activities may create an obstacle to participation in extracurricular activities by students who are low income.

(2) The legislature intends to reduce the obstacle to participation in extracurricular activities caused by the fees charged to students who are low income by creating equitable access to opportunities that improve academic, social, and emotional outcomes, collecting and analyzing data, and addressing barriers to extracurricular activities."
