Findings—Purpose—Part headings not law—2006 c 263: See notes following RCW 28A.150.230.

Findings—1995 c 284: "The legislature finds that if students are to succeed in an increasingly competitive economy, they will need to be taught by teachers who are aware of the technological innovations and changes that are occurring throughout business, industry, and government. Having teachers who are more aware of these changes will lead to improvements in curriculum and instruction, thereby making public schools more relevant to the future career and personal needs of our students."
