

**RCW 28B.77.020 Educational attainment goals and priorities—
Short-term strategic action plan—Ten-year road map—System reviews—
Role of education data center—Responsibility for work of the office—
Additional duties.**

(1) Aligned with the state's biennial budget and policy cycles, the council shall propose educational attainment goals and priorities to meet the state's evolving needs. The council shall identify strategies for meeting the goals and priorities by means of a short-term strategic action plan and a ten-year plan that serves as a road map.

(a) The goals must address the needs of Washington residents to reach higher levels of educational attainment and Washington's workforce needs for certificates and degrees in particular fields of study.

(b) The council shall identify the resources it deems appropriate to meet statewide goals and also recognize current state economic conditions and state resources.

(c) In proposing goals, the council shall collaborate with the superintendent of public instruction, the professional educator standards board, the state board of education, the state board for community and technical colleges, the four-year institutions of higher education, independent colleges and degree-granting institutions, certificate-granting institutions, and the workforce training and education coordinating board.

(2) The council shall update the strategic action plan every two years with the first strategic action plan to be submitted to the governor and the legislature by December 1, 2012. The ten-year road map must be updated every two years with the first road map to be submitted to the governor and the legislature by December 1, 2013. The council must provide regular updates to the joint higher education committee created in RCW 44.04.360 as needed.

(3) In order to develop the ten-year road map, the council shall conduct strategic planning in collaboration with agencies and stakeholders and include input from the legislature. The council must also consult with the STEM education innovation alliance established under RCW 28A.188.030 in order to align strategies under the road map with the STEM framework for education and accountability developed by the alliance. The road map must encompass all sectors of higher education, including secondary to postsecondary transitions. The road map must outline strategies that address:

(a) Strategic planning, which includes setting benchmarks and goals for long-term degree production generally and in particular fields of study;

(b) Expanding access, affordability, quality, efficiency, and accountability among the various institutions of higher education;

(c) Higher education finance planning and strategic investments including budget recommendations necessary to meet statewide goals;

(d) System design and coordination;

(e) Improving student transitions;

(f) Higher education data and analysis, in collaboration with the education data center, which includes outcomes for recruitment, retention, and success of students;

(g) College and career access preparedness, in collaboration with the office of the superintendent of public instruction and the state board of education;

(h) Expanding participation and success for racial and ethnic minorities in higher education;

(i) Development and expansion of innovations in higher education including innovations to increase attainment of postsecondary certificates, and associate, baccalaureate, graduate, and professional degrees; and innovations to improve precollege education in terms of cost-effectiveness and transitions to college-level education;

(j) Strengthening the education pipeline and degree production in science, technology, engineering, and mathematics fields, and aligning strategies under the road map with the STEM framework for action and accountability developed under RCW 28A.188.030; and

(k) Relevant policy research.

(4) As needed, the council must conduct system reviews consistent with RCW 28B.77.080.

(5) The council shall facilitate the development and expansion of innovative practices within, between, and among the sectors to increase educational attainment and assess the effectiveness of the innovations.

(6) The council shall use the data and analysis produced by, and in consultation with, the education data center created in RCW 43.41.400 in developing policy recommendations and proposing goals. In conducting research and analysis the council at a minimum must:

(a) Identify barriers to increasing educational attainment, evaluate effectiveness of various educational models, identify best practices, and recommend methods to overcome barriers;

(b) Analyze data from multiple sources including data from academic research and from areas and agencies outside of education including but not limited to data from the department of health, the department of corrections, and the department of social and health services to determine best practices to remove barriers and to improve educational attainment;

(c) Assess educational achievement disaggregated by income level, age, gender, race and ethnicity, country of origin, and other relevant demographic groups working with data from the education data center;

(d) Track progress toward meeting the state's goals;

(e) Communicate results and provide access to data analysis to policymakers, the superintendent of public instruction, institutions of higher education, students, and the public; and

(f) Use data from the education data center wherever appropriate to conduct duties in (a) through (e) of this subsection.

(7) The council shall collaborate with the appropriate state agencies and stakeholders, including the state board of education, the office of the superintendent of public instruction, the state board for community and technical colleges, the workforce training and education coordinating board, and the four-year institutions of higher education to improve student transitions and success including but not limited to:

(a) Setting minimum college admission standards for four-year institutions of higher education, including:

(i) A requirement that coursework in American sign language or an American Indian language satisfies any requirement for instruction in a language other than English that the council or the institutions may establish as a general undergraduate admissions requirement; and

(ii) Encouragement of the use of multiple measures to determine whether a student must enroll in a precollege course, such as placement tests, the SAT, high school transcripts, college transcripts, or initial class performance;

(b) Proposing comprehensive policies and programs to encourage students to prepare for, understand how to access, and pursue

postsecondary college and career programs, including specific policies and programs for students with disabilities;

(c) Recommending policies that require coordination between or among sectors such as dual high school-college programs, awarding college credit for advanced high school work, and transfer between two and four-year institutions of higher education or between different four-year institutions of higher education; and

(d) Identifying transitions issues and solutions for students, from high school to postsecondary education including community and technical colleges, four-year institutions of higher education, apprenticeships, training, or workplace education; between two-year and four-year institutions of higher education; and from postsecondary education to career. In addressing these issues the council must recognize that these transitions may occur multiple times as students continue their education.

(8) The council directs the work of the office, which includes administration of student financial aid programs under RCW 28B.76.090, including the Washington college grant and other scholarships, the Washington advanced college tuition payment program, and work-study programs.

(9) The council may administer state and federal grants and programs including but not limited to those programs that provide incentives for improvements related to increased access and success in postsecondary education.

(10) The council shall protect higher education consumers including:

(a) Approving degree-granting postsecondary institutions consistent with existing statutory criteria;

(b) Establishing minimum criteria to assess whether students who attend proprietary institutions of higher education shall be eligible for the Washington college grant and other forms of state financial aid.

(i) The criteria shall include retention rates, completion rates, loan default rates, and annual tuition increases, among other criteria for students who receive the Washington college grant in chapter 28B.92 RCW and any other state financial aid.

(ii) The council may remove proprietary institutions of higher education from eligibility for the Washington college grant or other form of state financial aid if it finds that the institution or college does not meet minimum criteria.

(iii) The council shall report by December 1, 2014, to the joint higher education committee in RCW 44.04.360 on the outcomes of students receiving Washington college grants, impacts on meeting the state's higher education goals for educational attainment, and options for prioritization of the Washington college grant and possible consequences of implementing each option. When examining options for prioritizing the Washington college grant the council shall consider awarding grants based on need rather than date of application and making awards based on other criteria selected by the council.

(11) The council shall adopt residency requirements by rule.

(12) The council shall arbitrate disputes between and among four-year institutions of higher education and the state board for community and technical colleges at the request of one or more of the institutions involved, or at the request of the governor, or from a resolution adopted by the legislature. The decision of the council shall be binding on the participants in the dispute.

(13) The council may solicit, accept, receive, and administer federal funds or private funds, in trust, or otherwise, and contract with foundations or with for-profit or nonprofit organizations to support the purposes and functions of the council.

(14) The council shall represent the broad public interest above the interests of the individual institutions of higher education. [2019 c 406 s 42; 2015 c 83 s 2; 2013 2nd sp.s. c 25 s 6; 2012 c 229 s 104.]
