(1) By July 1, 2010, the development regulations of any jurisdiction:

(a) Adjacent to Interstate 5, Interstate 90, Interstate 405, or state route number 520, with a population over twenty thousand, and located in a county with a population over one million five hundred thousand; or

(b) Adjacent to Interstate 5 and located in a county with a population greater than six hundred thousand; or

(c) Adjacent to Interstate 5 and located in a county with a state capitol within its borders;

planning under this chapter must allow electric vehicle infrastructure as a use in all areas except those zoned for residential or resource use or critical areas. A jurisdiction may adopt and apply other development regulations that do not have the effect of precluding the siting of electric vehicle infrastructure in areas where that use is allowed.

(2) By July 1, 2011, or six months after the distribution required under RCW 43.31.970 occurs, whichever is later, the development regulations of any jurisdiction adjacent to Interstate 5, Interstate 90, Interstate 405, or state route number 520 planning under this chapter must allow electric vehicle infrastructure as a use in all areas except those zoned for residential or resource use or critical areas. A jurisdiction may adopt and apply other development regulations that do not have the effect of precluding the siting of electric vehicle infrastructure in areas where that use is allowed.

(3) By July 1, 2011, or six months after the distribution required under RCW 43.31.970 occurs, whichever is later, the

development regulations of any jurisdiction planning under this chapter must allow battery charging stations as a use in all areas except those zoned for residential or resource use or critical areas. A jurisdiction may adopt and apply other development regulations that do not have the effect of precluding the siting of electric vehicle infrastructure in areas where that use is allowed.

(4) Cities are authorized to adopt incentive programs to encourage the retrofitting of existing structures with the electrical outlets capable of charging electric vehicles. Incentives may include bonus height, site coverage, floor area ratio, and transferable development rights for use in urban growth areas.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Battery charging station" means an electrical component assembly or cluster of component assemblies designed specifically to charge batteries within electric vehicles, which meet or exceed any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540.

(b) "Battery exchange station" means a fully automated facility that will enable an electric vehicle with a swappable battery to enter a drive lane and exchange the depleted battery with a fully charged battery through a fully automated process, which meets or exceeds any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540.

(c) "Electric vehicle infrastructure" means structures, machinery, and equipment necessary and integral to support an electric vehicle, including battery charging stations, rapid charging stations, and battery exchange stations.

(d) "Rapid charging station" means an industrial grade electrical outlet that allows for faster recharging of electric vehicle batteries through higher power levels, which meets or exceeds any standards, codes, and regulations set forth by chapter 19.28 RCW and consistent with rules adopted under RCW 19.27.540.

(6) If federal funding for public investment in electric vehicles, electric vehicle infrastructure, or alternative fuel distribution infrastructure is not provided by February 1, 2010, subsection (1) of this section is null and void. [2009 c 459 s 9.]

A jurisdiction may adopt and apply other development regulations that do not have the effect of precluding the siting of electric vehicle infrastructure in areas where that use is allowed.

(2) A city may require that the facility: (a) Comply with all building, fire, safety, health code, and business licensing requirements; (b) conform to lot size, building size, setbacks, and lot coverage standards applicable to the zoning district except if the structure is a legal nonconforming structure; (c) is certified by the department of children, youth, and families licenser as providing a safe passenger loading area; (d) include signage, if any, that conforms to applicable regulations; and (e) limit hours of operations to facilitate neighborhood compatibility, while also providing appropriate opportunity for persons who use family day-care and who work a nonstandard work shift.

(3) A city may also require that the family day-care provider, before state licensing, require proof of written notification by the provider that the immediately adjoining property owners have been informed of the intent to locate and maintain such a facility. If a dispute arises between neighbors and the family day-care provider over licensing requirements, the licensor may provide a forum to resolve the dispute.

(4) Nothing in this section shall be construed to prohibit a city from imposing zoning conditions on the establishment and maintenance of a family day-care provider's home in an area zoned for residential or commercial use, so long as such conditions are no more restrictive than conditions imposed on other residential dwellings in the same zone and the establishment of such facilities is not precluded. If the council or board does not adopt findings of fact justifying its action before this hearing, then the council or board shall do so immediately after this public hearing. A moratorium or interim zoning control adopted under this section may be effective for not longer than six months, but may be effective for up to one year if a work plan is developed for related studies providing for such a longer period. The agreement to mediate shall be in writing and subject to chapter 7.07 RCW. If the parties are unable to agree on a mediator, each party shall nominate a mediator and the mediator shall be selected by lot from among the nominees. The mediator must be selected within five days after formal mediation procedures are initiated. The mediation process must be completed within fourteen days from the time the mediator is selected except that the mediation process may extend beyond fourteen days by agreement of the parties. The mediator shall, within the fourteen-day period or within the extension if an extension is agreed to, provide the parties with a written summary of the issues and any agreements reached.
