Finding—2020 c 261: "The legislature finds that the health and safety of the traveling public, law enforcement, and emergency medical service providers are enhanced by the voluntary sharing of information about medical conditions, including deafness and developmental disabilities. Licensed drivers and applicants who wish to voluntarily include a medical alert designation on their driver's license may provide law enforcement and emergency medical service providers with the opportunity to know at the point of contact or shortly thereafter that there is a medical condition which could affect communication or account for a driver health emergency. By taking action in accordance with existing driver privacy protections, the legislature seeks to enhance health and public safety by the voluntary provision and careful use of this information."
