

RCW 47.04.047 Personal wireless service facilities. Personal wireless service is a critical part of the state's infrastructure. The rapid deployment of personal wireless service facilities is critical to ensure public safety, network access, quality of service, and rural economic development.

It is the declared policy of this state to assure that the use of rights-of-way of state highways accommodate the deployment of personal wireless service facilities consistent with highway safety and the preservation of the public investment in state highway facilities.
