

RCW 47.04.210 Reimbursable transportation expenditures—

Processing and accounting. Federal funds that are administered by the department of transportation and are passed through to municipal corporations or political subdivisions of the state and moneys that are received as total reimbursement for goods, services, or projects constructed by the department of transportation are removed from the transportation budget. To process and account for these expenditures a new treasury trust account is created to be used for all department of transportation one hundred percent federal and local reimbursable transportation expenditures. This new account is nonbudgeted and nonappropriated. At the same time, federal and private local appropriations and full-time equivalents in subprograms R2, R3, T6, Y6, and Z2 processed through this new account are removed from the department of transportation's 1997-99 budget.

The department of transportation may make expenditures from the account before receiving federal and local reimbursements. However, at the end of each biennium, the account must maintain a zero or positive cash balance. In the twenty-fourth month of each biennium the department of transportation shall calculate and transfer sufficient cash from either the motor vehicle fund or the multimodal transportation account to cover any negative cash balances. The amount transferred is calculated based on expenditures from each fund. In addition, any interest charges accruing to the new account must be distributed to the motor vehicle fund and the multimodal transportation account.

The department of transportation shall provide an annual report to the senate and house transportation committees and the office of financial management on expenditures and full-time equivalents processed through the new account. The report must also include recommendations for process changes, if needed. [2005 c 319 § 122; 2001 2nd sp.s. c 14 § 601; 1997 c 94 § 1.]
