

RCW 47.66.010 Legislative declaration. There is significant state interest in assuring that viable multimodal transportation programs are available throughout the state. The legislature recognizes the need to create a mechanism to fund multimodal transportation programs and projects. The legislature further recognizes the complexities associated with current funding mechanisms and seeks to create a process that would allow for all transportation programs and projects to compete for limited resources. [1993 c 393 § 3.]
