

RCW 54.04.039 County with federal nuclear reservation within its boundaries—Special procedure for addition or withdrawal of territory from public utility district. (1) Any voting precinct located within a county that has a federal nuclear reservation within its boundaries is:

(a) Withdrawn from a public utility district if the precinct receives at least one electric distribution, water, or sewer service from a city, and no electric distribution, water, or sewer service from a public utility district;

(b) Included in a public utility district if any portion of the precinct receives at least one electric distribution, water, or sewer service from the public utility district.

(2) For voting precincts that meet the requirements of subsection (1) of this section, within ten days after March 24, 2004, and for voting precincts that later meet the requirements of subsection (1) of this section, within thirty days of meeting the requirements:

(a) The city that provides any electric distribution, water, or sewer service to a precinct that is withdrawn from a public utility district under subsection (1) of this section shall submit to the public utility district and the county auditor a list of street addresses, or map of the areas to which any service is provided;

(b) The public utility district that provides any electric distribution, water, or sewer service to a precinct that is included in the public utility district under subsection (1) of this section shall submit to the city or town and the county auditor a list of street addresses, or map of the areas to which any service is provided.

(3) Within ten days of receipt of the information required under subsection (2) of this section, the auditor shall determine which voting precincts are required to be withdrawn from or included in the public utility district, and provide that information to the public utility district commissioners who shall, within ten days, revise the boundaries of the district in conformance with RCW 54.12.010 without dividing any voting precinct.

(4) Unless otherwise provided in an agreement between the public utility district and the city or town, taxes or assessments levied or assessed against property located in an area withdrawn from a public utility district shall remain a lien and be collected as by law (a) if the taxes or assessments were levied or assessed before the withdrawal or (b) if the levies or assessments were made to pay or secure an obligation of the district duly incurred or issued before the withdrawal. The withdrawal of an area from the boundaries of a district does not exempt any property therein from taxation or assessment for the purpose of paying the costs of retiring or redeeming any obligation of the district duly incurred or issued before the withdrawal.

(5) Except as set forth in subsection (4) of this section, a public utility district may not levy or impose any taxes upon property located within those voting precincts withdrawn from the public utility district.

(6) Nothing in chapter 113, Laws of 2004 limits the authority of public utility districts and cities or towns to enter into service agreements that are otherwise permitted by law. [2004 c 113 § 2.]

Effective date—2004 c 113: "This act is necessary for the immediate preservation of the public peace, health, or safety, or

support of the state government and its existing public institutions,
and takes effect immediately [March 24, 2004]." [2004 c 113 § 3.]
