Findings—Declaration—1994 c 45: "The legislature finds that it is important to the general welfare to protect and preserve public safety in the operation of public transportation facilities and vehicles, in order to protect the personal safety of both passengers and employees. The legislature further finds that public transportation facilities and services will be utilized more fully by the general public if they are assured of personal safety and security in the utilization.

The legislature recognizes that cities, towns, counties, public transportation benefit areas, and other municipalities that offer public transportation services have the independent authority to adopt regulations, rules, and guidelines that regulate conduct in public transportation vehicles and facilities to protect and preserve the public safety in the operation of the vehicles and facilities. The legislature finds that this act is not intended to limit the independent authority to regulate conduct by these municipalities. The legislature, however, further finds that this act is necessary to provide statewide guidelines that regulate conduct in public transportation vehicles and facilities to further enhance the independent regulatory authority of cities, towns, counties, public transportation benefit areas, and any other municipalities that offer public transportation services." [1994 c 45 § 1.]

Severability—1994 c 45: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1994 c 45 § 6.]
