

RCW 70.46.031 Districts of one county—District boards of health

—Membership. (1) Except as provided in subsection (2) of this section, a health district to consist of one county may be created whenever the county legislative authority of the county shall pass a resolution or ordinance to organize such a health district under chapter 70.05 RCW and this chapter. The resolution or ordinance may specify the membership, representation on the district health board, or other matters relative to the formation or operation of the health district. In addition to the membership of the district health board determined through resolution or ordinance, the district health board must also include the members selected under (a) and (e) of this subsection.

(a) The remaining board members must be persons who are not elected officials and must be selected from the following categories consistent with the requirements of this section and the rules adopted by the state board of health under RCW 43.20.300:

(i) Public health, health care facilities, and providers. This category consists of persons practicing or employed in the county who are:

(A) Medical ethicists;

(B) Epidemiologists;

(C) Experienced in environmental public health, such as a registered sanitarian;

(D) Community health workers;

(E) Holders of master's degrees or higher in public health or the equivalent;

(F) Employees of a hospital located in the county; or

(G) Any of the following providers holding an active or retired license in good standing under Title 18 RCW:

(I) Physicians or osteopathic physicians;

(II) *Advanced registered nurse practitioners;

(III) Physician assistants or osteopathic physician assistants;

(IV) Registered nurses;

(V) Dentists;

(VI) Naturopaths; or

(VII) Pharmacists;

(ii) Consumers of public health. This category consists of county residents who have self-identified as having faced significant health inequities or as having lived experiences with public health-related programs such as: The special supplemental nutrition program for women, infants, and children; the supplemental nutrition program; home visiting; or treatment services. It is strongly encouraged that individuals from historically marginalized and underrepresented communities are given preference. These individuals may not be elected officials and may not have any fiduciary obligation to a health facility or other health agency, and may not have a material financial interest in the rendering of health services; and

(iii) Other community stakeholders. This category consists of persons representing the following types of organizations located in the county:

(A) Community-based organizations or nonprofits that work with populations experiencing health inequities in the county;

(B) The business community; or

(C) The environmental public health regulated community.

(b) The board members selected under (a) of this subsection must be approved by a majority vote of the board of county commissioners.

(c) If the number of board members selected under (a) of this subsection is evenly divisible by three, there must be an equal number of members selected from each of the three categories. If there are one or two members over the nearest multiple of three, those members may be selected from any of the three categories. If there are two members over the nearest multiple of three, each member over the nearest multiple of three must be selected from a different category. However, if the board of health demonstrates that it attempted to recruit members from all three categories and was unable to do so, the board may select members only from the other two categories.

(d) There may be no more than one member selected under (a) of this subsection from one type of background or position.

(e) If a federally recognized Indian tribe holds reservation, trust lands, or has usual and accustomed areas within the county, or if a 501(c)(3) organization registered in Washington that serves American Indian and Alaska Native people and provides services within the county, the board of health must include a tribal representative selected by the American Indian health commission.

(f) The county legislative authority may appoint elected officials from cities and towns and persons other than elected officials as members of the health district board so long as the city and county elected officials do not constitute a majority of the total membership of the board.

(g) Except as provided in (a) and (e) of this subsection, a resolution or ordinance adopted under this section must specify the provisions for the appointment, term, and compensation, or reimbursement of expenses.

(h) The jurisdiction of the local board of health shall be coextensive with the boundaries of the county.

(i) The local health officer, as described in RCW 70.05.050, shall be appointed by the official designated under the provisions of the resolution or ordinance. The same official designated under the provisions of the resolution or ordinance may appoint an administrative officer, as described in RCW 70.05.045.

(j) At the first meeting of a district board of health the members shall elect a chair to serve for a period of one year.

(k) The number of members selected under (a) and (e) of this subsection must equal the number of city and county elected officials on the board of health.

(1) Any decision by the board of health related to the setting or modification of permit, licensing, and application fees may only be determined by the city and county elected officials on the board.

(2) A local board of health comprised solely of elected officials may retain this composition if the local health jurisdiction had a public health advisory committee or board with its own bylaws established on January 1, 2021. By January 1, 2022, the public health advisory committee or board must meet the requirements established in RCW 70.46.140 for community health advisory boards. Any future changes to local board of health composition must meet the requirements of subsection (1) of this section. [2021 c 205 s 6; 1995 c 43 s 11.]
