Transportation demand management—State agencies—Joint comprehensive commute trip reduction plan—Reports. (1) The secretary of the department of transportation may coordinate an interagency board or other interested parties for the purpose of developing policies or guidelines that promote consistency among state agency commute trip reduction programs required by RCW 70A.15.4020 and 70A.15.4040 or developed under the joint comprehensive commute trip reduction plan described in this section. The board shall include representatives of the departments of transportation, enterprise services, ecology, and commerce and such other departments and interested groups as the secretary of the department of transportation determines to be necessary. Policies and guidelines shall be applicable to all state agencies including but not limited to policies and guidelines regarding parking and parking charges, employee incentives for commuting by other than single-occupant automobiles, flexible and alternative work schedules, alternative worksites, and the use of state-owned vehicles for car and vanpools and guaranteed rides home. The policies and guidelines shall also consider the costs and benefits to state agencies of achieving commute trip reductions and consider mechanisms for funding state agency commute trip reduction programs.

(2) State agencies sharing a common location in affected urban growth areas where the total number of state employees is one hundred or more shall, with assistance from the department of transportation, develop and implement a joint commute trip reduction program. The worksite must be treated as specified in RCW 70A.15.4040 and 70A.15.4050.

(3) The department of transportation shall develop a joint comprehensive commute trip reduction plan for all state agencies, including institutions of higher education, located in the Olympia, Lacey, and Tumwater urban growth areas.

(a) In developing the joint comprehensive commute trip reduction plan, the department of transportation shall work with applicable state agencies, including institutions of higher education, and shall collaborate with the following entities: Local jurisdictions; regional transportation planning organizations as described in chapter 47.80 RCW; transit agencies, including regional transit authorities as described in chapter 81.112 RCW and transit agencies that serve areas within twenty-five miles of the Olympia, Lacey, or Tumwater urban growth areas; and the capitol campus design advisory committee established in RCW 43.34.080.

(b) The joint comprehensive commute trip reduction plan must build on existing commute trip reduction programs and policies. At a minimum, the joint comprehensive commute trip reduction plan must include strategies for telework and flexible work schedules, parking management, and consideration of the impacts of worksite location and design on multimodal transportation options.

(c) The joint comprehensive commute trip reduction plan must include performance measures and reporting methods and requirements.

(d) The joint comprehensive commute trip reduction plan may include strategies to accommodate differences in worksite size and location.

(e) The joint comprehensive commute trip reduction plan must be consistent with jurisdictional and regional transportation, land use, and commute trip reduction plans, the state six-year facilities plan, and the master plan for the capitol of the state of Washington.
(f) Not more than ninety days after the adoption of the joint comprehensive commute trip reduction plan, state agencies within the three urban growth areas must implement a commute trip reduction program consistent with the objectives and strategies of the joint comprehensive commute trip reduction plan.

(4) The department of transportation shall review the initial commuter trip reduction program of each state agency subject to the commuter trip reduction plan for state agencies to determine if the program is likely to meet the applicable commuter trip reduction goals and notify the agency of any deficiencies. If it is found that the program is not likely to meet the applicable commuter trip reduction goals, the department of transportation will work with the agency to modify the program as necessary.

(5) Each state agency implementing a commuter trip reduction plan shall report at least once per year to its agency director on the performance of the agency's commuter trip reduction program as part of the agency's quality management, accountability, and performance system as defined by RCW 43.17.385. The reports shall assess the performance of the program, progress toward state goals established under RCW 70A.15.4060, and recommendations for improving the program.

(6) The department of transportation shall review the agency performance reports defined in subsection (5) of this section and submit a biennial report for state agencies subject to this chapter to the governor and incorporate the report in the commuter trip reduction board report to the legislature as directed in RCW 70A.15.4060(6). The report shall include, but is not limited to, an evaluation of the most recent measurement results, progress toward state goals established under RCW 70A.15.4060, and recommendations for improving the performance of state agency commuter trip reduction programs. The information shall be reported in a form established by the commuter trip reduction board. [2020 c 20 § 1131; 2015 c 225 § 105; 2009 c 427 § 3; 2006 c 329 § 11; 1997 c 250 § 6; 1996 c 186 § 516; 1991 c 202 § 19. Formerly RCW 70.94.551.]
