

RCW 70A.500.340 Entity must be registered as a collector to act as a collector in a plan—Disposition of electronic products received by a registered collector—Recordkeeping requirements—Display of notice—Site visits.

(1) Only an entity registered as a collector with the department may act as a collector in a plan. All covered electronic products received by a registered collector must be submitted to a plan. Fully functioning computers that are received by a registered collector in working order may be sold or donated as whole products by the collector for reuse. Computers that require repair to make them a fully functioning unit may only be repaired on-site at the collector's place of business by the registered collector for reuse according to its original purpose.

(2) Registered collectors may use whole parts gleaned from collected computers or new parts for making repairs as long as there is a part-for-part exchange with nonfunctioning computers submitted to a plan.

(3) Registered collectors may not include computers that are gleaned for reuse in the weight totals for compensation by the plan.

(4) Registered collectors must maintain a record of computers sold or donated by the collector for a period of three years.

(5) Registered collectors must display a notice at the point of collection that computers received by the collector may be repaired and sold or donated as a fully functioning computer rather than submitted to a processor for recycling.

(6) The authority, authorized party, or the department may conduct site visits of all registered collectors that reuse or refurbish computers and who have an agreement with the authority or authorized party to provide collection services. If the authority or authorized party finds that a collector is not providing services in compliance with this chapter, the authority or authorized party shall report that finding to the department for enforcement action. [2009 c 285 s 1. Formerly RCW 70.95N.350.]
