

**RCW 71.24.335 Reimbursement for behavioral health services provided through telemedicine or store and forward technology—**

**Coverage requirements—Audio-only telemedicine.** (1) Upon initiation or renewal of a contract with the authority, behavioral health administrative services organizations and managed care organizations shall reimburse a provider for a behavioral health service provided to a covered person through telemedicine or store and forward technology if:

(a) The behavioral health administrative services organization or managed care organization in which the covered person is enrolled provides coverage of the behavioral health service when provided in person by the provider;

(b) The behavioral health service is medically necessary; and

(c) Beginning January 1, 2023, for audio-only telemedicine, the covered person has an established relationship with the provider.

(2)(a) If the service is provided through store and forward technology there must be an associated visit between the covered person and the referring provider. Nothing in this section prohibits the use of telemedicine for the associated office visit.

(b) For purposes of this section, reimbursement of store and forward technology is available only for those services specified in the negotiated agreement between the behavioral health administrative services organization, or managed care organization, and the provider.

(3) An originating site for a telemedicine behavioral health service subject to subsection (1) of this section means an originating site as defined in rule by the department or the health care authority.

(4) Any originating site, other than a home, under subsection (3) of this section may charge a facility fee for infrastructure and preparation of the patient. Reimbursement must be subject to a negotiated agreement between the originating site and the behavioral health administrative services organization, or managed care organization, as applicable. A distant site, a hospital that is an originating site for audio-only telemedicine, or any other site not identified in subsection (3) of this section may not charge a facility fee.

(5) Behavioral health administrative services organizations and managed care organizations may not distinguish between originating sites that are rural and urban in providing the coverage required in subsection (1) of this section.

(6) Behavioral health administrative services organizations and managed care organizations may subject coverage of a telemedicine or store and forward technology behavioral health service under subsection (1) of this section to all terms and conditions of the behavioral health administrative services organization or managed care organization in which the covered person is enrolled, including, but not limited to, utilization review, prior authorization, deductible, copayment, or coinsurance requirements that are applicable to coverage of a comparable behavioral health care service provided in person.

(7) This section does not require a behavioral health administrative services organization or a managed care organization to reimburse:

(a) An originating site for professional fees;

(b) A provider for a behavioral health service that is not a covered benefit; or

(c) An originating site or provider when the site or provider is not a contracted provider.

(8) (a) If a provider intends to bill a patient, a behavioral health administrative services organization, or a managed care organization for an audio-only telemedicine service, the provider must obtain patient consent for the billing in advance of the service being delivered.

(b) If the health care authority has cause to believe that a provider has engaged in a pattern of unresolved violations of this subsection (8), the health care authority may submit information to the appropriate disciplining authority, as defined in RCW 18.130.020, for action. Prior to submitting information to the appropriate disciplining authority, the health care authority may provide the provider with an opportunity to cure the alleged violations or explain why the actions in question did not violate this subsection (8).

(c) If the provider has engaged in a pattern of unresolved violations of this subsection (8), the appropriate disciplining authority may levy a fine or cost recovery upon the provider in an amount not to exceed the applicable statutory amount per violation and take other action as permitted under the authority of the disciplining authority. Upon completion of its review of any potential violation submitted by the health care authority or initiated directly by an enrollee, the disciplining authority shall notify the health care authority of the results of the review, including whether the violation was substantiated and any enforcement action taken as a result of a finding of a substantiated violation.
