

RCW 76.04.620 State funds—Loans—Recovery of funds from the landowner contingency forest fire suppression account. Biennial general fund appropriations to the department of natural resources normally provide funds for the purpose of paying the emergency fire costs and expenses incurred and/or approved by the department in forest fire suppression or in reacting to any potential forest fire situation. When a determination is made that the fire started in the course of or as a result of a landowner operation, moneys expended from such appropriations in the suppression of the fire shall be recovered from the landowner contingency forest fire suppression account. The department shall transmit to the state treasurer for deposit in the general fund any such moneys which are later recovered. Moneys recovered during the biennium in which they are expended may be spent for purposes set forth in this section during the same biennium, without reappropriation. Loans between the general fund and the landowner contingency forest fire suppression account are authorized for emergency fire suppression. The loans shall not exceed the amount appropriated for emergency forest fire suppression costs and shall bear interest at the then current rate of interest as determined by the state treasurer. [1986 c 100 § 36.]
