

RCW 77.12.272 Elk hoof disease—Program to monitor and assess causes of and potential solutions for—Washington State University college of veterinary medicine designated as state lead. Subject to the availability of amounts appropriated for this specific purpose, the legislature designates Washington State University college of veterinary medicine as the state lead in developing a program to monitor and assess causes of and potential solutions for elk hoof disease. The college must establish an elk monitoring system in southwest Washington in order to carry out this mission. In conducting this work, the college must work collaboratively with entities including the department, the state veterinarian, and any tribes with interest in participating. The college must provide regular updates, at minimum on an annual basis, to the appropriate committees of the legislature and the commission on its findings, program needs, and any recommendations. [2017 c 159 § 3.]

Finding—Required rule making—2017 c 159: See notes following RCW 77.12.047.
