

RCW 81.77.040 Certificate of convenience and necessity required
—Issuance—Transferability—Solid waste categories. A solid waste collection company shall not operate for the hauling of solid waste for compensation without first having obtained from the commission a certificate declaring that public convenience and necessity require such operation. Operating for the hauling of solid waste for compensation includes advertising, soliciting, offering, or entering into an agreement to provide that service. To operate a solid waste collection company in the unincorporated areas of a county, the company must comply with the solid waste management plan prepared under chapter 70A.205 RCW in the company's franchise area.

Issuance of the certificate of necessity must be determined on, but not limited to, the following factors: The present service and the cost thereof for the contemplated area to be served; an estimate of the cost of the facilities to be utilized in the plant for solid waste collection and disposal, set out in an affidavit or declaration; a statement of the assets on hand of the person, firm, association, or corporation that will be expended on the purported plant for solid waste collection and disposal, set out in an affidavit or declaration; a statement of prior experience, if any, in such field by the petitioner, set out in an affidavit or declaration; and sentiment in the community contemplated to be served as to the necessity for such a service.

When an applicant requests a certificate to operate in a territory already served by a certificate holder under this chapter, the commission may, after notice and an opportunity for a hearing, issue the certificate only if the existing solid waste collection company or companies serving the territory will not provide service to the satisfaction of the commission or if the existing solid waste collection company does not object.

In all other cases, the commission may, with or without hearing, issue certificates, or for good cause shown refuse to issue them, or issue them for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted such terms and conditions as, in its judgment, the public convenience and necessity may require.

Any right, privilege, certificate held, owned, or obtained by a solid waste collection company may be sold, assigned, leased, transferred, or inherited as other property, only if authorized by the commission.

For purposes of issuing certificates under this chapter, the commission may adopt categories of solid wastes as follows: Garbage, refuse, recyclable materials, and demolition debris. A certificate may be issued for one or more categories of solid waste. Certificates issued on or before July 23, 1989, shall not be expanded or restricted by operation of this chapter.
