

RCW 90.66.070 Transfer of property entitled to water under permit—Rights—Requirements. (1) At any time that the holder of a family farm development permit or a publicly owned land permit shall transfer the controlling interest of all or any portion of the land entitled to water under such permit to a person who can qualify to receive water for irrigation of such land under a family farm permit, the department shall, upon request, issue a family farm permit to such person under the same conditions as would have been applicable if such request had been made at the time of the granting of the original family farm development permit. If the permit under which water is available is held by a public water entity prior to the transfer of the controlling interest to a person who qualifies for a family farm permit, such entity shall continue delivery of water to such land without any restriction on the length of time of delivery not applicable generally to all its water customers.

(2) The issuance of a family farm permit secured through the acquisition of land and water rights from the holder of a family farm development permit, or from the holder of a publicly owned land permit, where water delivery prior to the transfer is from a public water entity, may be conditioned upon the holder of the family farm permit issued continuing to receive water through the facilities of the public water entity.
